LETTER OF TRANSMITTAL

DEPARTMENT OF THE INTERIOR,
BUREAU OF EDUCATION,
Washington, D. C., October 26, 1928.

SIR: Secondary education continues to grow and expand. The number of high-school graduates increases from year to year, and the percentage of these graduates who go to higher institutions is still on the increase. It is imperative that a list of those secondary schools that do a standard quantity and quality of work be accessible to students who wish to do secondary school work and to those institutions to whom secondary school graduates apply for admission. The work of inspecting and of approving these secondary schools is done by agents of State departments of education, by representatives of State universities, and by certain regional accrediting associations. Upon five previous occasions the Bureau of Education has published in bulletin form lists of secondary schools approved by these agencies. Any revised list is accurate and complete only at the time it is compiled because new high schools are being organized at the rate of two each day, and the work of approving these schools is never finished. Our last compilation was made in 1925. The Commissioner of Education therefore asked Dr. Frank M. Phillips, Chief of the Division of Statistics, to direct the preparation of a new bulletin. I recommend that it be published as a bulletin of the Bureau of Education under the usual title of "Accredited Secondary Schools in the United States."

Respectfully submitted.

L. A. KALBACH,
Acting Commissioner.

THE SECRETARY OF THE INTERIOR.

ACCREDITED SECONDARY SCHOOLS IN THE UNITED STATES

The American high school continues to grow, but there is evidence that the rate of growth has been slowing up for the past four or five years. In 1910 the public high school enrolled 915,061 pupils; the private high school, 117,400; preparatory departments of colleges, 66,042; and secondary departments of teacher-training institutions, 12,890; making 1,111,393 in all. In 1926, these enrollments were 3,757,466; 295,625; 55,632; and 23,402, respectively, with a total of 4,132,125. These figures do not include junior high school pupils below the traditional first year of the regular high-school work. The 1926 enrollments are from 21,700 public high schools, 2,500 private high schools, 386 preparatory departments of colleges, and 125 secondary departments of teacher-training schools.

Many of the new high schools are junior schools. The junior organization generally takes one or two of the upper grades of the elementary school, and one or more of the early high school years, and unites them into a single group with a course of study that makes the change from the elementary work to secondary work less abrupt. During the past 25 years the number of junior high schools has increased from less than a dozen to 1,109 with 1,949 other schools having junior departments. More than 1,000,000 pupils are enrolled in these junior high schools and in junior departments of junior-senior high schools of which number 676,064 are below the first regular high-school year.

In recent years almost 50 per cent of the high-school graduates attend college or some other institution of learning after graduation. A large majority of these enter an institution that stipulates graduation from an accredited school as one of the entrance requirements. This bulletin, similar in arrangement, content, and design to those published in 1913, 1915, 1916, 1922, and 1925, is intended to meet the needs not only of such students, but of officers charged with the control of secondary schools and higher institutions, and State examining and certifying boards as well.

ACCREDITED SECONDARY SCHOOL DEFINED

"An accredited secondary school," as the term is used in this bulletin, is a school which is equipped to prepare students for colleges requiring 15 units for unconditioned admission and which has been investigated or approved for this purpose by one of the following agencies: A State officer of education, a university or college inspector or committee on admissions, an officer or committee of an accrediting association.

In the majority of the schools in Georgia, Louisiana, Maryland, North Carolina, South Carolina, Texas, and Virginia, and in a few cities in other States, high-school courses are based upon seven years of elementary training. In all other places these 15 units represent secondary work above the standard eight-grade elementary school course. As a general rule the curriculum of an accredited school represents four years of 36 or more weeks each; at least three teachers give their whole time to high-school work,¹ and the school keeps up an adequate library and laboratory equipment.

UNIT DEFINED

The following authoritative definition of the word "unit" has been made by the national conference committee on standards of colleges and secondary schools, which was formerly composed of representatives of the National Association of State Universities, the New England College Entrance Certificate Board, the College Entrance Examination Board, the Association of Colleges and Preparatory Schools of the Middle States and Maryland, the Association of Colleges and Secondary Schools of the Southern States, the New England Association of Colleges and Secondary Schools, the Association of American Colleges, the Association of Urban Universities, the Carnegie Foundation for the Advancement of Teaching, and the United States Commissioner of Education:

A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work.

This statement is designed to afford a standard of measurement for the work done in secondary schools. It takes—

- (1) The 4-year high-school course as a basis and assumes that—
- (2) The length of the school year is from 36 to 40 weeks; that—
- (3) A period is from 40 to 60 minutes in length; and that—
- (4) The study is pursued four or five periods a week;

but under ordinary circumstances a satisfactory year's work in any subject can not be accomplished in less than 120 sixty-minute hours, or their equivalent. Schools organized on any other than a 4-year basis can, nevertheless, estimate their work in terms of this unit.

¹ Exceptions are certain schools in the lists of Georgia, Kansas, Kentucky, Montana, and Nebraska which do not conform in every particular to the definition but are approved by the State officials. Also see table on university admission requirements.

A 4-year secondary-school curriculum should be regarded as representing not more than 16 units of work.

VARIATIONS IN REQUIREMENTS OF ACCREDITING AGENCIES

The number of subjects recognized by the various accrediting bodies and institutions as forming an acceptable part of the college preparatory course varies greatly; for example, the University of Illinois has the following requirements for admission to the general liberal-arts course: English composition and literature, 3 units; algebra, 1 unit; plane geometry, 1 unit; foreign languages, 2 units; general electives, 4 units; and special electives, 4 units, making a total of 15 units. The general electives include from 1 to 4 units in Latin, Greek, French, German, and Spanish, from 1 to 3 units in Italian, and an additional unit in English. One unit is allowed in trigonometry, $\frac{1}{2}$ unit in solid geometry, and $\frac{1}{2}$ to 1 unit in advanced algebra. One unit is allowed in Greek and Roman history, 1 in medieval and modern history, $\frac{1}{2}$ to 1 in English history, $\frac{1}{2}$ to 1 in American history, $\frac{1}{2}$ to 1 in civics, and $\frac{1}{2}$ to 1 in economics and economic history. One to 2 units are allowed in chemistry and the same in physics, and $\frac{1}{2}$ to 1 in each of the following sciences: Commercial geography, physiography, physiology, zoology, and botany. The special electives include astronomy, $\frac{1}{2}$ unit; geology, $\frac{1}{2}$ to 1 unit; agriculture, 1 to 3 units; bookkeeping, 1 unit; business law, $\frac{1}{2}$ unit; commercial arithmetic, $\frac{1}{2}$ unit; domestic science, 1 to 3 units; art drawing, $\frac{1}{2}$ to 1 unit; mechanical drawing, $\frac{1}{2}$ to 1 unit; manual training or farm mechanics, 1 to 2 units; other foreign languages, 1 to 2 units; general science, $\frac{1}{2}$ to 1 unit; music, 1 to 2 units; shorthand and typewriting when taken together, 1 to 2 units; and typewriting alone (double periods), 1 unit.

Chicago University has but one specific requirement, that of 3 units of English. The others, to make 15, may be selected from groups. All State universities specify 15 or more units. Only two require 16 units for admission.

The requirements of each voluntary accrediting agency are briefly stated at the head of the list of schools which it accredits. At the head of each list of schools are summarized the requirements for admission to the A. B. course of the State university. The schools on the accredited list generally have the privilege of certificating students to other courses as well. To outline the admission requirements for all these courses would consume much space and might lead to confusion. The requirements for admission to the A. B. course may, in each case, be considered fairly typical of the institution's policy with respect to entrance requirements.

METHODS OF ACCREDITING

Two methods are in common use for carrying on the system of accrediting in those States where the State authority embraces agencies for higher education. Under the first, the inspection of the work of the high schools is done through an officer or committee of the State university, and the list of acceptable or accredited high schools is published in the catalogue of the university and thus made available for other institutions within the same State or for institutions in neighboring States. Under the second, the inspection and rating are done by the State superintendent of public instruction, the State board of education, or the State education office, acting through specially appointed officers. Examples of the former method are furnished by the Universities of California, Colorado, and Nebraska; of the latter method, by the States of Iowa, New York, and Ohio.

The requirement of a completion of a standard four-year high-school course representing 15 units for admission to college, or as a part of the prescription for admission to professional schools or to the practice of professions, has produced a group of organizations among whose activities are the coordination of standards of secondary education in neighboring States and the compilation of lists of accredited secondary schools. Such sectional organizations are now at work in the North Central States, Northwestern States, New England States, Middle States and Maryland, and the Southern States. These organizations are purely voluntary and have no legal control over the institutions which they rate. The influence which they wield, however, because of the fact that they focus representative educational opinion in their respective sections, is considerable. Occasionally, also, private institutions, like the University of Chicago, have carried on their own investigation and accrediting.

For convenience in making comparisons, tables are presented showing accrediting requirements and university admission requirements by States.

DIVISIONS OF THE BULLETIN

Part I: State lists.—The bulletin is divided into two parts. The first part contains lists of schools accredited by State universities and State officers of education. Sometimes both the State university and the State department of education publish lists of accredited schools.² When the State department of education or the State university publishes lists of accredited or approved high schools of different grades, only schools of the first grade are included in the bulletin, except in the case of California, Delaware, Georgia, Kansas, Kentucky, Nebraska, and North Dakota.³

Part II: Lists of accrediting associations.—Part II contains the lists of the four principal associations which undertake to accredit schools. The methods or standards of these associations are not identical. The list accredited by each is preceded by a statement of the basis upon which it is compiled.

The schools are listed alphabetically, according to the towns in which they are located. The names of accredited private secondary schools and academies are printed in italics.

² In Minnesota, the State education department accredits or approves only public schools, but private schools having the requisite standards and equipment are accredited by the State university.

³ Schools in Division B of the University of California are accredited. Their continued accrediting, however, is rendered somewhat uncertain by undeveloped organization, inadequate resources, unsatisfactory standards, or other causes.

In Delaware, schools are divided into groups according to number of pupils, number of teachers, and value of apparatus, the larger and better equipped schools being in the first group. Both groups given are accredited by the State university.

The schools in Group II of the Georgia list, though weak in laboratory, library, and sometimes teaching staff, are fully accredited by the University of Georgia, and are therefore included in the bulletin.

Class B schools in Kansas have at least 4 teachers in the high school, including superintendent or principal, at least 4 teachers in the grades, and at least 9 months of school in the grades. Class C schools have 3 teachers in the high school, 3 in the grades, and 9 months of school in the grades. Class D schools have at least 2 teachers giving entire time in the high school and 3 teachers in the grades.

Accredited high schools in Kentucky in Class B must meet practically the same requirements as Class A schools, except with respect to the number and qualification of teachers and the value of library and scientific apparatus.

For the convenience of smaller communities the University of Nebraska has established a list of minor accredited schools, the graduates of which may receive 28 points on credentials, giving them conditional admission to college. This condition is canceled when 30 hours of college work are completed.

In North Dakota, schools are divided into classes according to number of pupils, number of teachers, and value of apparatus, the larger and better equipped schools being in the first class. Graduates from all three classes are admitted unconditionally to the University of North Dakota.

 Willits—Union High School.
 Willows—Glenn County High School.
 Woodlake—Union High School.
 Yuba City—Union High School.

CANAL ZONE

[See also p. 118]

There is a high school at Balboa Heights and one at Cristobal.

The following colléges and universities admit graduates of the Canal Zone high schools on a certificate basis:

University of Michigan, Ann Arbor, Mich. (Highly recommended graduates whose credits meet full requirements of the university.)

- Ohio State University, Columbus, Ohio.
 Oberlin College, Oberlin, Ohio.
 Purdue University, Lafayette, Ind.
 University of Alabama, Tuscaloosa, Ala.
 Colorado School of Mines, Golden, Colo. (Provided investigation shows applicant is qualified for work.)
 Michigan College of Mining, Hancock, Mich. (One free scholarship each year to any high-school graduate.)
 Georgia School of Technology, Atlanta, Ga.
 Tufts College, Medford, Mass.
 Temple University, Philadelphia, Pa.
 University of California, Berkeley, Calif. (Subject to approval of applicant's scholarship and high-school program.)
 Vanderbilt University, Nashville, Tenn. (Applicant must meet all requirements for entrance.)
 University of Pennsylvania, Philadelphia, Pa. (Individual students may be admitted by certificate, each student's record being considered on its merits.)
 Simmons College, Boston, Mass.
 New York University, New York, N. Y. (Provided subjects completed meet the university's requirements.)

FIRST GROUP

(High Schools are divided into groups according to number of pupils, number of teachers, and value of apparatus, the larger and better equipped schools being in the first group.)

Bridgeville.
Dover—
High School.
State College for Colored Students (High School Dept.).
Georgetown.
Harrington.

Laurel.
Lewes.
Milford.
Newark.
New Castle.
Seaford.
Smyrna.

Wilmington—
Alexis I. Du Pont High School.
High School.
Howard High School.⁵
Wyoming—Caesar Rodney High School.

SECOND GROUP

Delmar.
Felton.
Frankford.

Greenwood.
Middletown.
Milton.

Millsboro.
Selbyville.

There is no formal method of accrediting private and parochial schools in the State, but the following are generally recognized as being accredited:

Dover—*Wesley Collegiate Institute* (university admits graduates upon certificate).

New Castle—*St. Peter's Parochial School*.

Wilmington—

Friends School (university admits graduates on certificate).

Misses Hebb's School for Girls (university admits graduates on certificate).

Salesianum (university admits graduates on certificate).

Tower Hill School (university admits graduates on certificate).

Ursuline Academy (university admits graduates on certificate).

DISTRICT OF COLUMBIA

IOWA

Public High Schools Approved by the Iowa State Department of Public Instruction and Private High Schools Approved by the Iowa State Board of Secondary Schools Relations, Both Types Accepted by the University of Iowa for the Year 1926-27

Graduates of public 4-year high schools in Iowa, or of 4-year private secondary schools which are approved by the Board of Secondary Schools Relations, will be received without examination, so far as subjects properly certified meet the requirements of the courses (at the University of Iowa) to which admission is sought.

KANSAS

Public High Schools Accredited by the State Department of Education for the Year 1926-27

"By act of the State legislature all graduates of accredited high schools in Kansas are admitted to the freshman class of the university without examination or condition."

The accredited public high schools in Kansas are divided into classes A, B, C, and D, according to the number of teachers giving their entire time to high-school work. Class A schools must have at least 5 teachers devoting full time to high-school work; Class B, at least 4; Class C, at least 3; and Class D, at least 2.

NORTH DAKOTA

Public High Schools Classified by the State Department of Public Instruction and Approved by the University of North Dakota for the Year 1927-28

	Units
State university admission requirements.....	15
Prescribed units—	
English.....	3
Mathematics.....	1
Electives in groups: (1) Foreign languages (if the foreign-language group is offered, at least 2 units must be in the same language); (2) sciences; (3) social sciences; (4) mathematics.....	6
Free electives.....	5

FIRST CLASS

(High schools are divided into classes according to number of pupils, number and qualifications of teachers, and value of apparatus, the larger and better-equipped schools being in the first class.)

Anamoose.	Ellendale.	Leeds.	Pembina.
Aneta.	Enderlin.	Lidgerwood.	Petersburg.
Beach.	Fairmount.	Lisbon.	Plaza.
Belfield.	Fargo.	McVile.	Ray.
Berthold.	Fessenden.	Maddock.	Rolette.
Bisbee.	Finley.	Mandan.	Rolla.
Bismarck.	Glen Ullin.	Marmarth.	Rugby.
Bottineau.	Grafton.	Mayville.	St. Thomas.
Bowbells.	Grand Forks.	Michigan.	Sarles.
Bowman.	Granville.	Milnor.	Sentinel Butte.
Buffalo.	Hankinson.	Milton.	Sheldon.
Cando.	Harvey.	Minnewaukan.	Stanley.
Carrington.	Hatton.	Minot.	Steele.
Casselton.	Hettinger.	Minto.	Starkweather.
Cavalier.	Hillsboro.	Mohall.	Towner.
Cooperstown.	Hope.	Mott.	Valley City.
Crosby.	Hunter.	Neche.	Velva.
Devils Lake.	Jamestown.	New England.	Wahpeton.
Dickinson.	Kenmare.	New Rockford.	Westhope.
Donneybrook.	Kindred.	New Salem.	Wildrose.
Drake.	Lakota.	Northwood.	Williston.
Drayton.	La Moure.	Oakes.	Wyndmere.
Edgeley.	Langdon.	Page.	
Egeland.	Larimore.	Park River.	

⁵ Colored.

SECOND CLASS

Alexander.	Forman.	Nekoma.	Tioga.
Ashley.	Hannah.	Nome.	Turtle Lake.
Bathgate.	Lignite.	Osnabrock.	Walhalla.
Buxton.	Linton.	Portland.	Washburn.
Churchs Ferry.	Marion.	Ryder.	Wilton.
Crary.	Litchville.	Sanborn.	Wimbledon.
Dazey.	McClusky.	Sharon.	Wishek.
Edmore.	Medina.	Sherwood.	
Flaxton.	Napoleon.	Sykeston.	

THIRD CLASS

Bucyrus.	Forest River.	Monango.	Surrey.
Calvin.	Gilby.	Omeme.	Taylor.
Carpio.	Glenburn.	Portal.	Tower City.
Christina.	Hannaford.	Reeder.	Underwood.
Cogswell.	Havana.	Reynolds.	Walcott.
Courtenay.	Inkster.	Rock Lake.	Webster.
Crystal.	Kensal.	St. John.	Willow City.
Epping.	Lansford.	Sheyenne.	York.
Esmond.	Maxbass.	Souris.	

Private schools classified:

- Fargo—*Oak Grove Seminary* (1)
- Grand Forks—*St. James Academy* (1)
- Jamestown—*St. Johns Academy* (1)
- Willow Springs—*Notre Dame Academy* (2)

OHIO

High Schools Approved as First Class by the State Department of Education of Ohio for the Year 1927-28

By statutory provision the State University of Ohio is required to admit graduates of high schools rated as first class by the State Department of Education. The university, however, strongly recommends the completion of the following units for admission to the College of Liberal Arts, leading to the A. B. degree:

Total number of prescribed units.....	Units 15
Units recommended—	
English.....	3
Mathematics.....	2
History.....	1
Chemistry or physics.....	1
Biological science.....	1
Foreign language.....	4
Electives.....	3

 South High School.
 Y. M. C. A. Evening High School.
 Zaleski.
 Zanesfield—Jefferson Rural High School.
 Zanesville—
 Lash High School.
 St. Thomas Academy.

OKLAHOMA

Schools Accredited by the State Department of Public Instruction and Accepted by the University of Oklahoma, June 30, 1927

	Units
State university admission requirements.....	15
Prescribed units—	
English.....	3
Mathematics.....	2
Electives.....	10
Ada—	
East Central State Teachers College (High School Dept.).	
High School.	
Latta High School (R. F. D.).	
Adair.	
Addington.	
Afton.	
Agra.	
Alden.	
Alex.	
Aline.	
Allen.	
Alluwe.	
Alma.	
Altus—	
High School.	
Pleasant Point High School (R. F. D.).	
Porter High School (R. F. D.).	
Alva—	
High School.	
Northwest State Teachers College (High School Dept.).	
Amber.	
Ames.	
Amorita.	
Anadarko.	
Antlers.	
Apache.	
Apperson.	
Arapaho.	
Ardmore—	
High School.	
Plainview High School.	
Arnett.	
Atoka.	
Avant.	
Barnsdall.	
Bartlesville.	
Bearden.	
Beaver.	
Beggs—	
High School.	
Wheatley High School. ⁵	
Bennington.	
Berwyn.	
Big Cabin.	
Billings.	
Binger.	
Bishop.	
Bixby.	
Blackwell.	
Blair—	
High School.	
Warren High School (R. F. D.).	
Blanchard.	
Blue Jacket.	
Boise City—Cimarron County High School.	
Bockchito.	
Bokoshe.	
Boley. ⁵	
Boswell.	
Bowring.	
Boynton.	
Bradley.	
Braman.	
Bridgeport.	
Brinkman—East View High School.	
Bristow.	
Britton.	
Broken Arrow—	
High School.	
Union Consolidated High School.	
Broken Bow.	
Buffalo—	
High School.	
Kibby High School (R. F. D.).	
Burbank—	
Carter Nine High School.	
High School.	
Burlington.	
Burneyville.	
Butler.	
Byars.	
Byron.	
Cache.	
Caddo.	
Calera.	
Calumet.	
Calvin.	
Caney.	
Canute.	
Capron.	
Carmen.	
Carnegie.	
Carney.	
Carrier.	
Carter—	
High School.	
Highway High School (R. F. D.).	
Retrop High School (R. F. D.).	
Cashion.	
Cement—	
Fairview High School.	
High School.	
Centralia.	
Chandler.	
Chattanooga.	
Checotah—	
High School.	
Onapa High School (R. F. D.).	
Victor High School (R. F. D.).	
Chelsea.	
Cherokee.	
Cheyenne.	
Chickasha—	
Friends School.	
High School.	
Lincoln High School. ⁵	
Chockie.	
Choctaw.	
Choteau.	
Claremore—	
High School.	
Oklahoma Military Academy.	
Clarita.	
Clayton.	
Cleo Springs.	
Cleveland.	
Clinton.	
Cloud Chief.	
Colgate.	
Coalton.	
Colbert.	
Coleman.	
Collinsville.	
Comanche.	
Commerce.	
Copan.	
Cordell—	
High School.	
Oklahoma Christian College High School.	
Council Hill.	
Covington.	
Coweta.	
Coyle.	
Crescent.	
Crowder.	
Cushing—	
High School.	
Norfolk High School (R. F. D.).	
Custer—	
High School.	
Independence High School (R. F. D.).	
Cyril.	
Dacoma.	
Dale.	
Davenport.	
Davidson—	
High School.	
Wilson High School (R. F. D.).	
Davis.	
Deer Creek.	
Delaware—	
Childers High School (R. F. D.).	
High School.	
Delhi.	
Denoya.	
Depew.	
Devol.	
Dewar.	
Dewey.	
Dover.	
Driftwood.	
Drummond.	
Drumright.	
Duke.	
Duncan—	
Empire High School (R. F. D.).	
High School.	
Durant—	
High School.	
Oklahoma Presbyterian College (Prep. Dept.).	
South East State Teachers College (High School Dept.).	
Dustin.

TENNESSEE

High Schools Approved by the State Department of Education and Accepted by the University of Tennessee for the Year Ending June 30, 1927

The State Department of Education grades the high schools of the State as A-1, A, B, and C. As the graduates of all A-1, A, and B high schools are admitted unconditionally to the freshman class of the University of Tennessee, these three classes have been combined. Since, however, the graduates of class C schools are admitted to the university on trial, the schools in this grade have been omitted, as it is the purpose to include in the bulletin only such schools as prepare their graduates to meet fully the entrance requirements of the State university.

PART II.—LISTS OF SCHOOLS ACCREDITED BY VARIOUS ASSOCIATIONS

COMMISSION OF THE ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS OF THE SOUTHERN STATES

The minimum standard for accrediting shall be:

(a) No school shall be accredited which does not require for graduation the completion of a 4-year high-school course of study embracing 16 units as defined by this association. A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. More than 20 periods per week should be discouraged.

(b) The minimum scholastic attainment required of the faculty of any accredited secondary school on the southern list is that not less than 75 per cent of the total number of teachers of academic subjects, including the principal and teachers of agriculture and home economics, shall hold bachelor's degrees from a college approved by the association. Beginning with the school year 1927-28, all beginning teachers and principals shall have had not less than 12 semester hours' work in education.

(c) The maximum teaching load of any teacher shall be 750 pupil periods per week with not more than six daily recitations. The commission will scrutinize with extreme care any school in which instructors teach as many as six daily periods. In interpreting this standard a double period in laboratory, shop, or two periods of study-room supervision shall be counted as the equivalent of one recitation period.

(d) The laboratory and library facilities shall be adequate for the needs of instruction in the courses taught. The library should have 500 volumes, exclusive of duplicates and Government publications.

(e) The location and construction of the buildings, the lighting, heating, and ventilation of the rooms, the nature of the lavatories, corridors, water supply, school furniture, apparatus, and methods of cleaning shall be such as to insure hygienic conditions for both pupils and teachers.

(f) The efficiency of instruction, the acquired habits of thought and speech, and the general intellectual and moral tone of a school are paramount factors; and, therefore, only schools which rank well in these particulars, as evidenced by rigid, thoroughgoing, systematic inspection, shall be considered eligible for the list.

(g) The commission will decline to consider any school whose teaching force consists of fewer than four teachers giving their full time to high-school instruction. When local conditions warrant the introduction of vocational subjects, such as agriculture, manual training, household arts, and commercial subjects, the commission will hold that a sufficient number of teachers must be employed and proper equipment added to provide adequately for such instruction.

(h) No school shall be considered unless the regular annual blank furnished for the purpose shall have been filled out and placed on file with the inspector. In case of schools having 12 or more teachers, a complete report on teachers once in three years will be sufficient, but full data relative to changes must be presented annually.

(i) All schools whose records show an excessive number of pupils per teacher, as based on the average number belonging, even though they may technically meet all other requirements, will be rejected. The association recognizes 30 as a maximum.

(j) The time for which schools are accredited shall be limited to one year, dating from the time of the adoption of the list by the association. In every case the character of the work done by a school must be the determining factor in accrediting. By personal visits of the inspectors, by detailed reports from the principals, and by the records made by the students in colleges, the character of a school's work shall be determined from time to time. A school shall be removed from the accredited list for failure to maintain the above standards.

(k) The commission recommends \$1,000 as the minimum salary for teachers.

ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS OF THE
MIDDLE STATES AND MARYLAND

Standards for Secondary Schools

I. ORGANIZATION AND ADMINISTRATION

Standard 1. A school to be accredited shall require for graduation the completion of a 4-year secondary school course covering 15 units. A unit is defined as a year's work in one subject requiring approximately one-fourth of the student's time. It includes in the aggregate not less than 120 sixty-minute hours of prepared classroom work. The minimum length of a recitation period shall be 40 minutes, exclusive of time used in the changing of classes or teachers. The association recommends a school year consisting of at least 36 weeks. Small classes, the distribution of the secondary school course over a period of more than four years, or excellence of results, as measured under standard 2, shall compensate for a school year shorter than 36 weeks.

Standard 2. The efficiency of instruction, the acquired habits of thought and study, and the general intellectual and moral level of a school are paramount factors in determining its standing; therefore only schools which rank high in these qualities, as shown through systematic, competent, sympathetic inspection, or by achievement of their graduates in higher institutions, shall be considered eligible for the accredited list.

Standard 3. The association will hold that a sufficient number of qualified teachers must be provided to care adequately for all instruction offered. Not less than the equivalent of the full teaching time of three teachers may be given to academic subjects.

II. PREPARATION OF TEACHERS

Standard 4. The standard of preparation for a teacher of academic subjects shall be the completion of a 4-year course in a college approved by the association or in a college of equal rank. Due consideration shall be given to teachers with other than this preparation who have demonstrated their ability through successful experience, provided that at least three-fourths of the teachers of academic subjects meet the standards of preparation.

Teachers should have had professional training or should have had successful teaching experience.

A school to be accredited shall have a salary schedule which is sufficient to secure teachers with foregoing qualifications.

III. THE TEACHING LOAD

Standard 5. The number of daily periods of classroom instruction for a teacher should not exceed five. A school requiring of any teacher more than six teaching periods a day or a daily teaching load of more than 150 pupil periods, must justify under standard 2 the deviation from this standard.

In interpreting this standard a double period of laboratory work or of study-room supervision may be counted as the equivalent of one period of teaching.

Standard 6. No school with an excessive number of pupils per teacher based on average attendance shall be accredited. The association recommends 30 as a maximum.

IV. PROGRAM OF STUDIES

Standard 7. The association recommends that every accredited school offer units of work in English, mathematics, foreign languages, social and natural sciences, practical and fine arts, and physical education. Vocational subjects should be offered where local conditions permit.

V. PHYSICAL EQUIPMENT

Standard 8. The location, construction, and care of school buildings, and the equipment shall be such as to insure hygienic conditions for both pupils and teachers.

Standard 9. The laboratory and the library facility shall be adequate to the needs of instruction in the subject taught.

NEW ENGLAND COLLEGE ENTRANCE CERTIFICATE BOARD

Members of the board: Amherst College, Bates College, Boston University, Bowdoin College, Brown University, Colby College, Massachusetts Agricultural College, Middlebury College, Tufts College, Wesleyan University, Williams College.

CONDITIONS OF APPROVAL

A school to be approved by the board must—

(1) Give satisfactory evidence as to curriculum, staff of teachers, and equipment.

(2) Be able to prepare for college according to some one of the recognized plans for entering a college represented on the board.

(3) Have a candidate for admission for the ensuing year at some college represented on the board.

(4) Have sent on examination, within a period of three years preceding the time of application, at least two students to one or more of the colleges represented on the board, except as provided for below in paragraph (b).

(a) In the case of a school whose application for approval has been rejected by the board because of the poor records of students sent to college, or whose certificate privilege has been withdrawn for the same reason, three satisfactory students must have been sent within the period of three years to one or more of the colleges represented on the board before a new application for approval will be considered. If four full years from the date of the rejection have elapsed, the application may be treated as if from a school which had not previously applied for approval. A school that has been dropped from the list because of poor record may, however, be placed on the "specimen" list a year later if the committee on schools so recommends (on account of a change of principal or for other good reason) and if the board unanimously accepts the recommendation; and an approved school that sends no pupils within six years to any of the colleges represented on the board will be dropped, but if after the meeting of the board the principal of such a school reports that he has one or more pupils to send to any one of the colleges represented on the board, he will be given the "specimen" privilege for the next year. Also if the application of a school for continuation of the privilege is tabled and the following year the school loses the privilege, the principal may have the "specimen" privilege for the coming year if it later appears that he has pupils to certify to the colleges on the board. (See next paragraph.)

(b) A school which has not sent within the required time at least two students, but which meets with the approval of the board in respect to curriculum, staff of teachers, and equipment, may, for the purpose of showing its standard of certification, send one or more students on certificate to one or more of the colleges represented on the board, providing the names of the students and the name of the college which each proposes to enter are sent to the secretary of the board in advance. The name of the school in this case will not appear in the list of approved schools, and final action on the application will not be taken until the board receives the report of

the students referred to above. At least two satisfactory students must be sent within three years in order to entitle the school to be placed on the trial list.

TRIAL LIST

A school when first approved is placed on a trial list for two years. If the record made by its candidates in the colleges represented on the board is satisfactory, it is then placed on the approved list.

PERIOD OF APPROVAL

The "specimen" privilege is granted to a school for one year only. Other schools may be approved for two, three, or four years. The approval dates from the first day of January of the year in which approval is granted.

NORTH CENTRAL ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

Standards for Accrediting Secondary Schools Adopted March, 1928

A. BUILDINGS

Standard 1.—The location and construction of the buildings, the lighting, heating, and ventilation of the rooms, the nature of the lavatories, corridors, closets, water supply, school furniture, apparatus, and methods of cleaning shall be such as to insure hygienic conditions for both pupils and teachers.

B. LIBRARY AND LABORATORIES

Standard 2.—The library and laboratory facilities must be adequate to meet the needs of instruction in all courses offered. The library should be classified and catalogued, and an annual inventory should be made of laboratory and shop equipment.

C. RECORDS

Standard 3.—Accurate and complete records of attendance and scholarship must be kept in such form as to be conveniently used and safely preserved.

D. REQUIREMENTS FOR GRADUATION

Standard 4.—No 4-year high school that does not require 15 units or more for graduation and no 3-year high school that does not require 11 units or more for graduation shall be accredited. The school year shall consist of a minimum of 36 weeks. The minimum length of a recitation period shall be 40 minutes, exclusive of all time used in changing of classes or teachers.

A unit course of study in a secondary school is defined as a course covering an academic year that shall include in the aggregate not less than the equivalent of 120 sixty-minute hours of classroom work—two hours of shop or laboratory work being equivalent to one hour of prepared classroom work.

E. INSTRUCTION AND SPIRIT

Standard 5.—The efficiency of instruction, the acquired habits of thought and study, the general intellectual and moral tone of a school and the cooperative attitude of the community are paramount factors, and therefore only schools that rank well in these particulars, as evidenced by rigid, thoroughgoing, sympathetic inspection, shall be considered eligible for the list.

F. SALARIES

Standard 6.—No school shall hereafter be accredited whose salary schedule is not sufficient to command and retain teachers whose qualifications are such as required by this association. The interpretation of this requirement shall be a matter of special responsibility for the State committee.

G. PREPARATION OF TEACHERS

Standard 7.—All schools accredited by the association shall maintain the following standards respecting teachers:

(a) The minimum attainments of a teacher of any academic subject, and of the supervisors of teachers of such subjects, shall be equivalent to graduation from a college belonging to the North Central Association of Colleges and Secondary Schools. Such requirements shall not be construed as retroactive.

(b) The minimum professional training of a teacher of any academic subject, and the supervisors of teachers of such subjects, shall be 15 semester hours in education. This requirement shall not be construed as retroactive.

The association recommends the following types of courses as meeting the spirit of this standard: Educational psychology, principles of secondary education, theory of teaching, special methods in subject taught, observation and practice of teaching, history of education, educational sociology, and school administration and supervision.

H. THE TEACHING LOAD

Standard 8.—An average enrollment in the school in excess of 30 pupils per teacher shall be considered as a violation of this standard. For interpreting this standard the principal, vice principals, study hall teachers, vocational advisors, librarians, and other supervisory officers may be counted as teachers for such portion of their time as they devote to the management of the high school. In addition, such clerks as aid in the administration of the high school may be counted on the basis of two full-time clerks for one full-time teacher.

I. THE PUPIL LOAD

Standard 9.—Four unit courses, or the equivalent in fractional unit courses as defined in standard 4, shall be considered the normal amount of work carried for credit toward graduation by the average or medium student. Only such students as rank in ability in the upper 25 per cent of the student body may be allowed to take more than four units for credit. A different practice in the school must be explained to the State committee.

NORTHWEST ASSOCIATION OF SECONDARY AND HIGHER SCHOOLS

Standards for Accrediting Secondary Schools

Standard 1—Buildings.—The location and construction of the buildings, the lighting, heating, and ventilation of the rooms, the nature of the lavatories, corridors, closets, water supply, school furniture, apparatus, and methods of cleaning shall be such as to insure hygienic conditions for both pupils and teachers.

Standard 2—Laboratory and library.—The laboratory and library facilities shall be adequate to the needs of instruction in the subjects taught.

Standard 3—Records.—Up-to-date records of attendance and scholarship shall be kept accurately and preserved safely.

Standard 4—Graduation units.—The association will accredit high schools organized on the 10-12 or 9-12 grade plan. Three-year high schools shall indicate what provision is made in the city system for junior high school organization. The minimum graduation requirements of three and four year high schools shall be 11 and 15 units, respectively.

(A unit course of study in a secondary school is defined as a course covering an academic year of not less than 36 weeks that shall include in the aggregate not less than the equivalent of 120 60-minute hours of classroom work, two hours of manual training or laboratory work being equivalent to one hour of classroom work.)

Standard 5—School atmosphere.—The efficiency of instruction, the acquired habits of thought and study, the general intellectual and moral tone of a school are paramount factors, and therefore only schools which rank well in these particulars, as evidenced by rigid, thoroughgoing, sympathetic inspection, shall be considered eligible for the list.

Standard 6—Number of teachers.—The association will decline to consider any school whose teaching force consists of fewer than four teachers of academic subjects, exclusive of the superintendent. The association recommends the introduction of the so-called vocational subjects, such as agriculture, manual training, household arts, and commercial subjects into schools where local conditions render such instruction feasible, but the commission will hold that a sufficient number of qualified teachers must be added to provide adequately for such instruction.

Standard 7—Preparation of teachers.—All teachers of one or more academic subjects must satisfy the following requirements:

(a) Graduation (bachelor or equivalent degree) from a college or university approved by the Northwest Association of Colleges and Secondary Schools, by a similar accrediting association, or by the educational authorities of the State in which the college is located.

(b) The minimum professional training of teachers of any academic subject shall be at least 12 (15 hours after September, 1927) semester hours in education. This should include special study of the subject matter and pedagogy of the subject to be taught. Such requirements shall not be construed as retroactive. (For the succeeding year the commission will interpret courses in education as the same courses are interpreted by the colleges or universities offering them.)

These requirements apply to no teacher already employed in a Northwest Association high school so long as the teacher remains in the same city system.

All academic teachers new to a school in any given year are required to conform to the standard. In case of violation the school will be warned and will be dropped the following year unless correction is made.

A school applying for the first time may be accredited if at least 80 per cent of the teachers of academic subjects fully meet the standard; the remaining 20 per cent must all have been employed in the school not fewer than two years immediately preceding the time of application.

The term "academic subjects" includes work of the following departments: English, laboratory science, mathematics, foreign language, history, and social science.

Standard 8—The teacher load.—No school showing an excessive teacher load shall be accredited. The association recommends that (1) the average daily attendance for October divided by the number of full-time teachers should give a quotient not greater than 25; (2) the number of daily classes taught per teacher should not exceed five; (3) the total number of students instructed by any teacher of academic subjects should not exceed 150 per day. The following are maximums and, if exceeded in any particular, constitute violations of this standard:

(1) Teacher-pupil ratio 1-30.

(2) Six classes per teacher per day.

(3) One hundred and sixty student-hours per day for any academic teacher.

In determining teacher-pupil ratio the following may be included under the term "teachers" for such time as they give to high-school work or management: Principals, vice principals, study-hall teachers, vocational advisors, librarians, and supervising teachers.

Standard 9—The pupil load.—The normal pupil load shall be four unit courses yearly, exclusive of music, drawing, physical training, typewriting, and student activities. Where more than 15 per cent of the pupils enrolled exceed this normal load, satisfactory explanation of the policy of the school in this regard must be made.

The association is conservative, believing that such policy will eventually work to the highest interests of all. It aims to accredit only those schools which possess organization, teaching force, standards of scholarship, equipment, and esprit de corps of such character as will unhesitatingly commend them to any educator, college, or university in the northwest territory.
